

## GlobalPRO Series

Global Link is innovating the standard RV lock and key with new G500 series keys and cylinders. New improvements over current cylinder and key designs will bring greater reliability, security, and functionality to RV locks.

### ACCESSIBILITY

- Redesigned Cylinder Slide Shutter
  - Allows For Smoother Key Insertion Than Standard 300 Series Cylinder Trap Door Shutters
  - Preserves The Cylinder Integrity If The Wrong Key Is Inserted
- Dimpled Scalp Promotes Proper Key Alignment
- Cylinders Are Compatible With All Global Link Lock And Key ALike Products
- Stamped Steel Automotive Style Key Stands Apart From Traditional RV Brass Keys

### DURABILITY

- Strengthened 500 Series Cylinders Feature
  - Harder Finish Coating For Corrosion Protection And Smoother Operation
  - Staked Cylinder Wafers That Have Better Retention Than Press Fit Wafers On 300 Series Cylinders
  - Cylinder Scalp Secured At 3 Points vs. 2 Points On Standard 300 Series Cylinders
- Stamped Steel Key Prevents Key Breakage Inside Cylinder And Provides More Turning Strength To The Lock Operation

### SECURITY

- Innovative 6 Wafer Cylinder Design Adds More Key Code Variations
- Brand New Key Line
  - No Counterfeit Keys Currently In The Marketplace
- Cylinder Protects From Improper Key Usage And Damage
  - Lowers Warranty Claims And Customer Frustration
